

## Wireless Standalone Smoke Detector

This Stand Alone Smoke Detector is available with dual ionization smoke sensing chamber. Stand Alone Smoke Detector is fast and easy to install and is mounted on a bracket which needs no wiring and it runs on a 9V DC battery. The horn output is 85 decibels at 10 ft. These smoke alarms should be placed in family households, in each individual unit of multiple-family buildings, schools, colleges, homes, offices, factories and just anywhere.
